

TEST YOUR KNOWLEDGE ON OUR VISION & VALUES

What we expect
of ourselves.
What we expect
of you.

No place for dumb luck

We want to be smart about safety. Look after yourself, keep an eye out for others and follow safety procedure at all times. At the end of each day, we expect our people to return home unharmed.

Act with integrity

Our word is important. We aim to keep our word to our clients and to each other. We expect everyone to speak openly and honestly, to treat others with respect and to act with integrity.

The business of building community

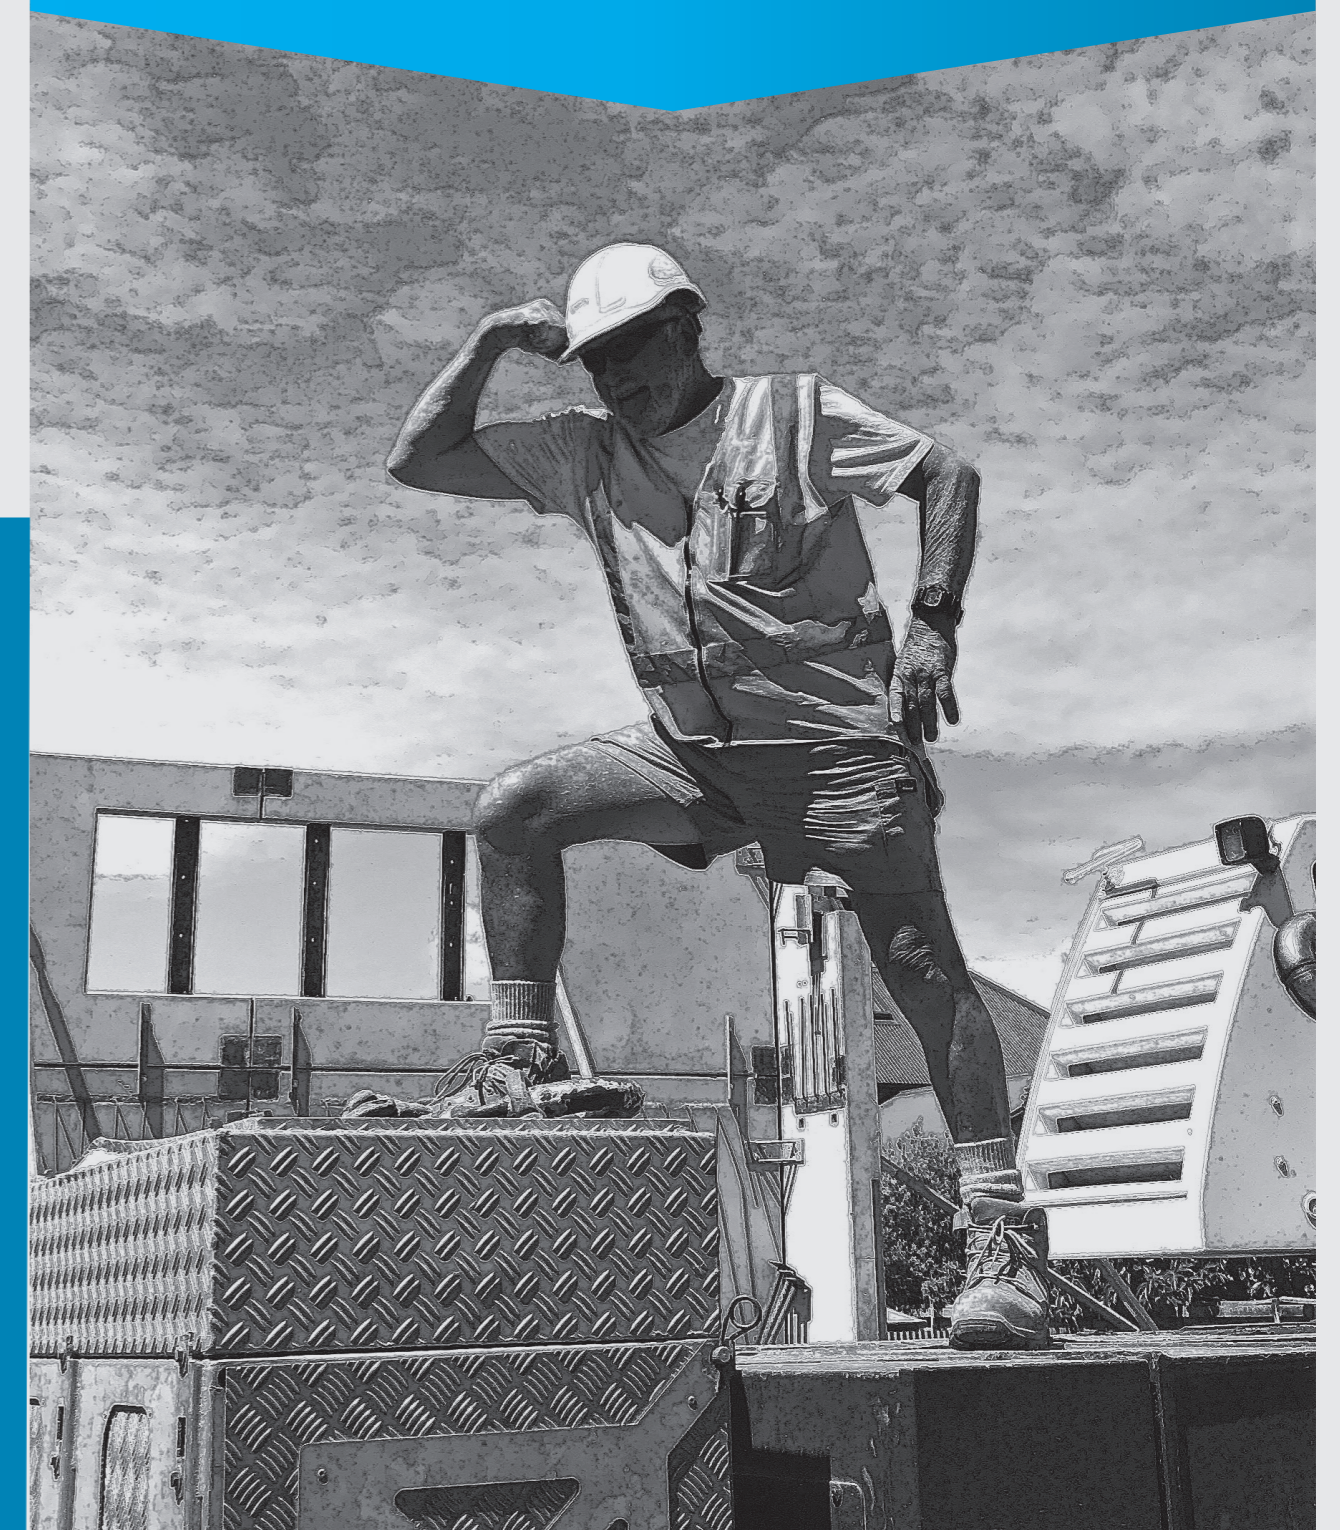

We work to honour the values set by our company's founder, Hugh Lattey. We aim to provide stability and security for our management and staff, their families, our clients, contractors and business partners, and the wider community we all belong to.

Let's not keep people waiting

This applies to management and staff. Be on time for meetings and project or task deadlines. Our clients rightly expect us to deliver on time, and we should expect the same of each other.

Tidiness

Tidiness is not just about how things look. It's a sign that we care about what we do and are paying attention to detail. Let's try to keep a clean, orderly office, work-bench and vehicle at all times.
